Re: "Approved" Roche SHE Prequalification Rating

Dear Drew Kolditz:

An important part of Roche Diagnostics Contractor SHE Management Program is Contractor SHE Prequalification. This letter confirms your company's safety prequalification rating of "Approved" which is effective until February 1 of next year.

The prequalification process includes a review of your company's Experience Modification Rate (EMR), OSHA Form 300A information, and submitted safety program materials. Please inform us of an updated EMR, OSHA Form 300A information, or revisions in your safety program, policies, or procedures that could affect the status of your company's safety prequalification rating.

Lastly, please read the attached Contractor SHE Handbook for site specific safety and environmental requirements such as completing the Site Specific SHE Plan (SSSP) and attending the orientation course before work. Visit the Roche Diagnostics public web site for contractors at www.rochesafetypregaul.com for information related to contractor pre-qualification, orientation address, substance abuse policy and campus maps.

If you have questions or concerns, contact me at 317-281-4598.

Sincerely,
Wade S. Ison
